Comforting Words

Many a Norway Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Norway readers.

"I suffered for five years from backache," says Hiram Lovejoy, Myrtle Ave., South Paris, Me. For days at a time any sudden move caused added pain. The secretions from my kidneys were too frequent in passage and my rest was broken at night. I lost health and strength and felt discouraged. When one of the family asked me to try Doan's Kidney Pills, I did so. I began to improve at once. It was not long before my kidneys were in good working order."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lovejoy had, Foster-Milburn Co., Props., Buffalo, N.Y. 22-23

KIDNEY TROUBLE CAUSES INTENSE SUFFERING, Sixteen years ago I was taken sick with kidney trouble and suffered terribly for three months. I did not work during this time and was mostly confined to the bed. After using other remedies I finally tried a bottle of Swamp-Root. I immediately began to feel better and after using seven fifty-cent bottles, was entirely cured and have had no kidney trouble since. I can truly say that I owe my good health to Swamp-Root. You may publish this letter for the benefit of other people afflicted as I was with the hope of bringing to their attention this most wonderful remedy.

Yours very truly, Hattie A. Quimby, 36 Spruce St., Waterville, Maine.

State of Maine, Kennebec County, ss. Personally appeared the above named Hattie A. Quimby, who subscribed above statement and made oath that the same is true in substance and in fact.

THE VACANT HOUSE

Along, I cross the threshold worn, Neath moss-grown roof and moulding wall, In musty rooms so crowded, Where gloomy silence broods o'er all.

Through the old house, now damp and chill, Many a voice now still, has rung, Many a smile and many a tear, Cheered or saddened those lives among.

Some mother here, has soothed her child, Singing some low sweet lullaby, Read peasant rhymes, or stories wove, Some childish mystery to destroy.

The dusty stairway that I tread, The figured walls of olden hue, This shell so strange and tenantless, In mystic thought I wander through.

You corner where the spider weaves, Dust covered its own silken thread, I list, faint echoes come to me From the empty attic overhead.

But vacant now, the house and still, And past the joys and sorrows of the past, While each tomorrow its shard will prove, No foot fall comes, a home to cheer.

From neath the rotting eaves and grey, The silent rain, the wind and fog, Vacant! Ah, dream the echo falls, And at last, vapors shadows come and go.

THE FRIEND WHO HAS GONE, One more friend has joined the number, One more loved one to be missed, One more loved one to be missed, One more pilgrim gone before.

We shall miss him at the bedside, When the winter breezes blow, We shall miss him in the summer, And when autumn harvests glow.

We shall look and wait and listen For his coming as of yore, For his smile and welcome hand clasp, That this world cannot restore.

Faith should teach no grief to borrow, Though our loss we sorely feel, That God's heaven cannot sorrow, That God's heaven cannot weal.

STATE HIGHWAY, Contract for construction of State highway in Oxford, Oxford County, 3.77 miles sand-clay road to J. H. McGregor, Rumford, \$15,987.90. Contract to be completed before Nov. 1, 1915.

A peculiar situation faces the commission in Oxford County but it is hoped this may be solved satisfactorily. There is no gravel to be used in highway construction, but to get rid of this a long stretch of road across the famous Oxford Plains is to be built of sand and clay, one of the first to be constructed in Maine by the Highway commission. The Oxford Plains road is on the main traveled highway and work has been needed here fully as badly as in any other section of Maine.

House No Longer a Castle, William Marconi, inventor of the wireless telegraph has made it known that he has invented a new apparatus by means of which it is possible for a person standing beside a solid partition, such as a brick wall, to look through the partition and observe what is happening on the other side, just as if no obstacle were interposed to the vision.

Mr. Marconi is quoted as saying that the device has been perfected to the point where persons in a room can see persons in an adjoining room viewed through the wall if the person is at a distance from the wall they become blurred.

NORTH WATERFORD.

From North Waterford to Salem, Mass. By Auto

Mr. and Mrs. Wm. Rice of North Waterford accompanied by Eva Upton of North Norway with Walter Lord as chauffeur made a trip to Salem, Mass., by auto, May 20 returning May 23rd.

Then the beautiful village of Conway, N. H., and other pretty villages too numerous to mention, arriving home about 4 p. m. without a mishap of any kind, well pleased with their long and pleasant journey, one to be long remembered by the happy party.

Weston Woodbury and son of Salem accompanied them home for a few days' visit to relatives in this place and East Stoneham. He came to be present at the exhuming of the bodies of his wife, Eva and sister Fay, wife of Walter Lord, whose bodies are to be placed in steel vaults and again interred the 25th.

A Last Resort

The Yale freshman year was proving too expensive to father, so father decided to have a "heart to heart" talk with Johnny, home for the week-end.

"Now son," said he gravely, but affectionately, "your mother and I are spending just as little as we possibly can. I get up in the morning at 6.30 and I work until after 5. But, son, the money just won't go round at the rate that your expenses are running. Now, I ask you as one man to another, what do you think we had better do?"

For a moment Johnny's head was buried in thought, and then he replied: "Well, father, I don't see any way out but for you to work nights."

Italy in the War

The entrance of Italy into the world war which began last August brings the number of states engaged in the conflict up to 11.

The territory Italy seeks to take from Austria-Hungary is estimated at 8000 square miles, somewhat larger than New Jersey.

The new completed Italy would be about equal in area to New England, New York and New Jersey, with a population less than twice as large.

In miles of territory and numbers of inhabitants the loss of all that Italy demands would make a small percentage of loss to Austria. About two per cent.

And the fact that most of the people are Italians and want to get away might indicate that Austria would be stronger without them. But this cuts off Austria-Bangor's "road to the sea."

Health Promotes Happiness.

Without health, genuine joy is impossible; without good digestion and regular bowel movement you cannot have health. Why neglect keeping the bowels open and risk being sick and ailing? You don't have to. Take one small Dr. King's New Life Pill at night, in the morning you will have a full, free bowel movement and feel much better. Helps your appetite and digestion. Try one to-night.

BUCKFIELD.

David Record passed away May 17 at the home of his nephew, George S. Record, about a mile from Buckfield village on the Turner road, aged 82 years and 3 months.

He was born in Buckfield, Feb. 9, 1833, the son of Ezekiel Record and was next to the youngest of a family of 13 children, only one of them now living, Mrs. Mary Thleston of Mechanic Falls. His younger brother, Jonathan, died two years ago.

Mr. Record lived on the home farm and cared for his parents, his father lived to be 96 years of age and his mother 87. When about 56 years of age, he married Mrs. Mary Randall. She died ten years ago.

He built a nice residence at North Buckfield and lived there until the first of the past winter. He and the writer, W. W. Maxin of this place had lived together much of the time during the past two years, a few months in the home of one then in the home of the other as convenience required, with frequent visits between times.

He was one of the social and companionable old men who always keep young. He was fond of good horses and always kept some and used to train colts for other people with much success. He was kind and generous to the poor and accommodating neighbor and a faithful friend. He was an earnest worker in the Grange as long as he was able to attend the meetings.

He was taken sick the first of last winter and went to board with a family near by for several weeks. He seemed to be failing and was moved to the home of his nephew where he received all the ministrations that kindness and patience could perform until he passed from earth. He leaves a large number of nieces and nephews and hosts of friends.

HIS NINE REASONS

for Running a "W & B" Mower

1. Clean and even cutting.
2. Easiest running account of lighter draft.
3. "W & B" Mowers cost less per year because they last longest.
4. Simple construction, resulting in less parts to get out of order.
5. Oil retaining chambers easily accessible to the running parts.
6. Self-sharpening due to the easy adjustment which will give a "shear cut" to the knives.
7. Longer life on account of highest grade raw materials and greatest strength of parts where strength is needed.
8. Cutting blades of reaper knife steel, crucible grade of special analysis designed to resist the friction wear of hard usage.
9. Each mower is run in a special testing machine and rigidly inspected to see that the parts are perfect and correctly adjusted before shipping.

Call at our store and we will demonstrate to you these nine reasons.

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as the assertion that inferior baking powders made of alum or phosphate of lime are as good as Royal, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Royal Baking Powder is as pure and wholesome as the vineyard grapes from which its cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphate is because their cost is less to the manufacturer.

One table was devoted to the Home Mission work and was in care of Mrs. Lucilla Morton of South Paris, and another large table full of Foreign Mission literature was in the care of its representative, Mrs. Annie Cobb Smith, of Saco.

The entertainment consisted of recitations, playlets, chorus singing by the different grades, a wand drill by 16 or more boys and a Maypole dance by 20 or more girls, closing by the Maypole tableau, while a quartette of girls sang a goodnight "May Song."

The whole affair was excellent and did great credit to both teachers and pupils. The proceeds are to be used to buy pictures and other conveniences for those grades in their rooms and for recreation.
